

Reproductive History Form
RHS Version B
QxQ Date 09/22/2011

I. General Instructions

The Reproductive History Form is completed during the participant's clinic visit. The interviewer must be certified and should have a working knowledge of the data entry procedures for electronic version forms and document titled "General Instructions for Completing Paper Forms" prior to completing this form. ID Number, Contact Year, and Name should be completed as described in that document.

The purpose of the RHS is to obtain information about female participants who have not reach menopause to ascertain their reproductive status.

II. Specific Instructions

1. The interviewer should record the response "yes" or "no" for the question.
2. The interviewer should record the month and year of the participant's last menstrual period or bleeding.
3. The interviewer should record the participant's response for this item.
4. The interviewer should record the number of missed periods that the participant missed. If the number of missed periods is zero, then skip to question #8.
5. The interviewer should record the response "yes" or "no" for this question. If the response is "no" then skip to question number 8.

6. The interviewer should record the age of when the participant stopped having menstrual periods or bleedings. Note: If still having bleeding occasionally then enter "00"

7. The interviewer should record the participant's response of "Natural", "Surgery", "Radiation", or "Don't Know" for this question.

B. Administrative
